

ManagerSeries®

With the industry-leading inspection reporting tools, BuildingReports also provides comprehensive service management tools. Unmatched accessibility and secure data give users a more efficient way to manage building inspections and take action on repairs or code requirements faster.

MANAGERSERIES CRM: BUILT TO KEEP YOUR BUSINESS MOVING

Paperwork slows teams down. ManagerSeries with CRM is built for the field and is mobile-friendly, web-based, and easy to use. Whether you're on a job site or in the office, it works seamlessly. For just \$99/month per office with unlimited users, service companies get the tools to:

- **Win more customers** – Manage multi-location accounts in one view with AccountsManager.
- **Never miss a beat** – Stay on top of urgent updates with NotificationsManager by email or SMS.
- **Stay organized** – Use SchedulingManager to simplify calendars for both field techs and office staff.
- **Deliver faster service** – Dispatch and track jobs in real time with ServiceManager.

And when your business is ready to scale further, ManagerSeries integrates seamlessly with platforms like ServiceTrade or Salesforce. Pair it with BuildingReports' award-winning ScanSeries for even greater impact. It's the easiest way to transition from paper to digital, keeping your team, customers, and bottom line happy.

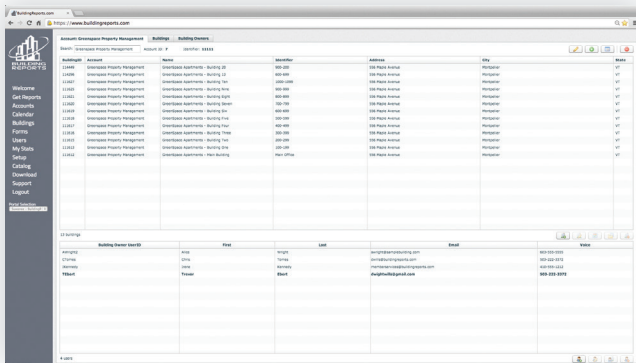

The most trusted name in compliance reporting

The BuildingReports Advantage

Now you can maximize efficiency, save money and reduce risk by managing critical inspection data with BuildingReports' detailed online reports. BuildingReports puts information at your fingertips. Just login to your secure account and review your report, authorize repairs, manage inventory and view inspections. Your information is accessible whenever and wherever you need it and immediately available to print for binder insertion when required. For more information about BuildingReports web-based fire and life safety inspection-reporting solutions, call +1 770 495 1993, email info@buildingreports.com or visit our website at buildingreports.com.

ACCOUNTMANAGER

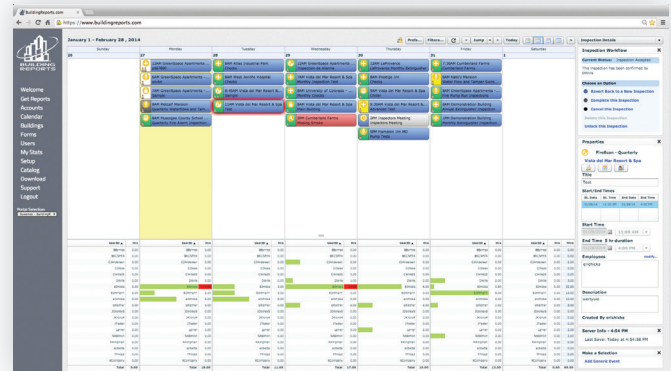

The AccountManager tool enables users to easily manage accounts within their secure online portal. An interactive dashboard provides users the ability to manage accounts at a group level instead of working with individual owner accounts and buildings.

- Allows users to view and group all buildings and owners associated with a customer into specified accounts.
- Enables user to manage access privileges at the account or individual level.
- Building inspection schedules can be created in conjunction with SchedulingManager.
- Unique interfaces allow users to better manage entire facility and user portfolio.

NOTIFICATIONMANAGER

NotificationManager is a management tool that will automatically send an SMS or email message when specified activities take place concerning users within your organization or online portal.

- Keep tabs on company inspection and service activity with automatic email and SMS notifications.
- Enables users to notify customers when new inspection reports are available.
- Ability to alert sales or account management staff when there are reports with discrepancies.
- Allows users to create email alerts for many types of work activities.

SERVICEMANAGER

ServiceManager allows users to create, track and dispatch service appointments and manage workflow through multiple calendar interfaces. It also allows field staff to update service tickets remotely during service appointments.

- Permits users to easily communicate and confirm upcoming service appointments via email.
- Allows user-entered database of system components and labor rates for efficient service ticket creation.
- Convenient management of service pricing and tech hours.
- BRMobile enables users to easily manage service events in the field.

SCHEDULINGMANAGER

SchedulingManager allows users to conveniently track inspections and manage workflow through efficient calendar interfaces. Users can quickly view scheduled events by the month, week or day.

- Manage inspection schedules through an efficient calendar interface with multiple views.
- Permits users to communicate and confirm upcoming inspections automatically via email.
- Manage inspection schedules in the field with BRMobile.
- Keep track of inspector hours for better resource management.
